KF MIDDLE EAST FITTING INDUSTRIAL AND PETROLEUM FACILITIES - L.L.C

MANUFACTURING FACILITIES

FORGING FACILITY (India)

Kunj Forging (India) is well equipped with state-of-art manufacturing facility with 3 Press Hammers, 3 Ring Rolling Hammers capable of manufacturing forgings upto 3200 mm Diameter and Maximum weight upto 8000 kgs. Supporting the hammers are 5 heating furnaces of 10 tonnes capacity each.

HEAT TREATMENT FACILITY (India)

Kunj Forging (India) has 5, 10, 20 Tonnes Boggie type with fork lift quenching furnaces fully equipped with modernized, temperature controller for heating & cooling the furnace. The forgings are well treated with various operations i.e., normalizing, annealing, quenching and temperature with a maximum temperature difference of +/- 5°C.

MACHINE SHOP (UAE)

KF Middle East has a fully moderanised workshop with plenty of CNC lathe machines, vertical lathe machines, multi spindle drill machines to produce forgings by nearly 500 MT per month with world class quality and packing.

INSPECTION & TESTING (UAE)

KF MIDDLE EAST has a dedicated space within a company for performing quality checks and assessments on products and materials. It ensures adherence to industry standards, improves control over testing processes, and provides quick feedback for quality improvements. Having this facility in-house allows for faster turnaround times, greater accuracy in quality assurance, and enhanced oversight across production stages.
